Ideas to Inspire your Children

Explore Animal Tracks

Making an animal track plot is a really exciting way to get outdoors, find out about what creatures live near you and to learn animal tracking skills. Make your own animal tracks in the mud!

Animal Meatballs

Animals can be made out of being creative with most foods, but Animal meatballs you could turn into spiders.

Finding Animals in Clouds

Cloud watching can take five minutes, be done almost anywhere where the sky can be seen and you have right cloud cover and is a great way to use your imagination in nature.

Create Fruit Animals

Do you need a simple activity that will not only be fun and creative but also fill your children's tummies with healthy food.

Make a Bird Nest out of Recycled Materials

Making a life-sized nest out of recycled materials, doesn't just lend itself to a crafty afternoon but it also stimulates learning through play at its best.

Wildlife Themed Bowl

You may not be able to afford a large set up with animals but you can make a fun little wildlife themed Habitat instead.

Animal Fun with Paper Straws

Just for fun or a special occasion, these add on for paper straws makes for more dramatic drinking.

Animal Play Dough Play

Use the playdough to make dinosaurs or other animals they know, perhaps make a zoo or a farm.

Make a Wildlife Video

Using some of the wonderful technology available now, make a wildlife video in the garden! Show it to family and friends.

Give your Kids a Camera to get Closer to Nature

Giving your child a camera in a wildlife-rich environment (like a zoo or duck park) allows them to explore the wonders of nature around them, focus on animals they hadn't noticed before and develops wildlife appreciation.

Recycled CD Critters

Recycle old CDs into beautiful wildlife garden/decoration hangers.
